WILSON APPROVES SOME RESERVATIONS

**Writes Letter To Hitchcock On
Subject And Treaty Will Be
On Floor Again**

(By Associated Press)

Washington, Feb. 7.—After listening to a letter from President Wilson, reaffirming his stand against any but interpretative reservations to the peace treaty, Democratic senators decided in conference today to proceed with their plans to help bring the treaty up in the Senate Monday and to work for a reservation compromise. The President's letter is understood to have expressed a willingness to accept any interpretative reservations the Democrats might frame but to have omitted any specific reservation proposals.

Some senators are understood to have urged the Democratic leaders to be more conciliatory in their attitude in view of the President's letter. It is said, however, that the only formal decision of the conference was to aid in every possible way the move to take the treaty up and expedite its ratification.

Senator Hitchcock took the letter with him today into a Democratic conference called to consider plans for getting the treaty back on the Senate floor. It is understood the President's letter endorsed the minority leader's stand on the treaty.

YANK MARINES GET BUSY IN SIBERIA

(By Associated Press)

London, Feb. 7.—American marines at Vladivostok intervened when Japanese soldiers attempted to prevent revolutionary troops from capturing Gen. Rozanoff, the Russian governor general, when the city was taken by the Reds, according to a Vladivostok dispatch to the Mail. The message said that Rozanoff finally escaped and took refuge on a Japanese cruiser.

NO NEWS OF IT AT WASHINGTON

Washington, Feb. 7.—Marine headquarters are without confirmation of the above Vladivostok report, but Marine Commandant Barnett said he did not doubt the accuracy of the report and that the landing of marines was within the authority of Admiral Gleaves, commander-in-chief of the Asiatic fleet.

MURDERER'S TRIAL AT LEXINGTON MONDAY

Lexington, Feb. 7.—Every effort will be made to protect Will Lockett, confessed murderer of Geneva Hardman, when he is brought to trial in the Fayette Circuit Court Monday evening. Whether it will be necessary to search every person before he enters the courtroom is a matter that will have to be decided when the attitude of the crowd is determined. Judge Charles Kerr said today.

Little difficulty is expected in the matter of obtaining a jury to try the girl's slayer, as anyone who expresses his belief in capital punishment is eligible to serve if the negro pleads guilty. The jury will be selected from the 31 names drawn last Monday for the common law term, and in case 12 cannot be obtained from this number, enough other names will have to be drawn from the jury wheel to complete the panel.

The prisoner will be brought over on a special train from Frankfort just preceding the time for his trial to begin. He will be accompanied by 200 troops, who will remain with him to protect him during the trial.

When Lockett was arrested he wore an army uniform. Unless steps are taken to prevent his doing so, the negro will appear in court Monday in this attire.

Although there is some talk that an attempt will be made Monday to lynch the negro, officials are looking for little trouble except from the curious crowds that are certain to gather to get a glimpse of the slayer.

BROKERAGE HOUSE ROBBED

(By Associated Press)

Louisville, Feb. 7.—Working under the glare of street lights, burglars during the night pried the padlock from an iron gate before the entrance to Henning Chambers and Company's offices near Fourth and Main streets during the night, forced the front door, blew open the steel safe and escaped with about \$200 in cash.

THE WEATHER

Partly cloudy tonight and Sunday; not much change in temperature.

TWO CANDIDATES FROM OLD MADISON

**May Ask Honors And Eighth
District Republican Conven-
tion In Danville**

Local Republicans are interested in the meeting of the Eighth district republican district convention which will be held in Danville, March 20 for the particular reason that Madison county may have two candidates for district honors. At this convention two delegates are to be chosen to the Republican National Convention at Chicago. At the same time the party will be re-organized and a new member from the Eighth elected to the State Central Committee. So far as can be learned, William Wallace, son of Hon. C. C. Wallace of this city, will have no opposition for one of the delegations to the national convention. Mr. Wallace is now a member of the staff of Judge E. C. O'Rear, in his extensive legal offices at Frankfort. However, he holds his residence here at his home in Richmond and is thus eligible to go as a delegate from the Eighth district. It is probable that no speaker in the last state campaign made more addresses for the republican ticket than young Wallace unless it was Gov. Morrow himself or George Colvin. He is held in highest esteem by the leaders of his party. He was offered a position on the Attorney General's staff at Frankfort but preferred to remain in private practice to accepting a political office. His services to his party justify entitling him to a delegate's place in the national convention and he looks like a sure winner at the Danville convention.

For the post of State Central Committee member from the Eighth a warm contest is expected to develop. Hon. George D. Florence, of Stanford, is said to be a certain entry for reelection to the committee place which he now holds for this district and has held for the past four years. Not content with holding the office of Commissioner of Agriculture at Frankfort, Hon. W. T. Hanna, of Shelby county, is said to have a hankering for that place on the state committee itself. And right here is where another Madison county man who has labored long and faithfully for his party is asking it to give him this slight honor. Hon. William O. Mays, of this city, is also understood to be a candidate for that place on the state central committee. As he is a first cousin of Gov. Morrow, it is said that he will have mighty strong backing for friends of Gov. Morrow want to see men on the state committee that he can absolutely rely on, it is said. So an interesting three-cornered race for the committee place is very apt to develop when the republican hosts from the Eighth gather at Danville on the second of March.

Little is heard as to their favorite candidate for the presidential nomination. Gov. Lowden, of Illinois, is said to be the favorite with National Committee member Hert, of Louisville, who is recognized as the big boss of his party just at present. It is said to be very probable, however, that the Kentucky delegation to the national convention will go uninstructed, so that it may be able to swing to the man who seems the strongest at the right moment.

Aged Educator Shot In Laurel

A dispatch from London, Laurel county says that Prof. W. H. Crook, was shot by his son at Lida, ten miles east of London. The shooting, it is said, was the culmination of a series of family troubles extending over a period of many years. Altho Professor Crook is about 60 years old and received two full loads from a shotgun, he is said to have an even chance to recover.

WEED OFF AT LEXINGTON

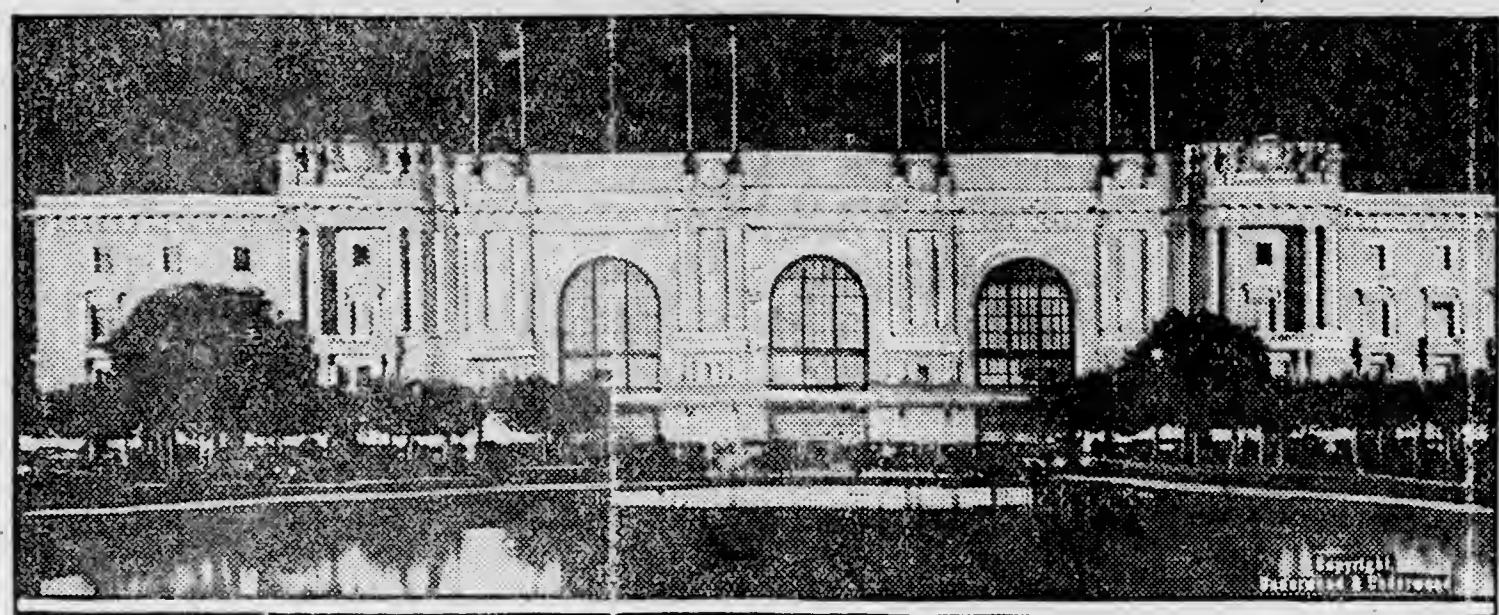

Lexington, Ky., Feb. 7.—The tobacco market showed no strength today after the sharp decline this week and the prices were from 10c to 20c off what they were a few weeks ago. The decrease in price is said to have been caused by the slump in foreign exchanges. The highest price at today's sales was \$76.88. No hope is held out for next week, as buyers are well supplied with good grades.

MILLERSBURG MILITARY INSTITUTE

has been closed for one month because of 18 cases of scarlet fever, mumps and influenza among students.

Fire of unknown cause originating in hay destroyed the new barn of Mrs. Belle Burgher, in Powell county, two horses, three mules and four cows perishing.

WHERE DEMOCRATS WILL MEET IN NATIONAL CONVENTION

The San Francisco Civic Auditorium, where the Democratic national convention will open June 28, 1920. It was erected at a cost of one million dollars and will seat from 10,000 to 15,000 persons.

BIG TIME AT SCHOOL CLOSING AT KINGSTON

(By Associated Press)

Kingston, Ky., Feb. 7.—The Kingston school closed last Friday evening with a very delightful entertainment, a pie supper and fruit supper combined, which had been arranged by two teachers Miss Lydia Young and Miss May Stopp. The largest crowd was in attendance that has been seen in Kingston in years, and all seemed to enjoy themselves greatly. Green Durham, the hustling ne trustee, acted as auctioneer, and was at his best. Boxes of fruit sold as high as \$10.25. We also sold 14 ladies' hats of the latest styles that helped to entertain the big crowd and added several dollars to the fund. A large cake was raffled off. The contents had been donated by our teachers and the patrons of the district. James Lackey was the winner with No. 13. A silver spoon was given to the prettiest girl and the race was close between Miss May Stopp and Miss Jean Doty, the latter being the lucky winner.

Five 25c cigars were given to the ugliest man. There were many nominations but everybody's eyes centered on Arch Hamilton and John Webb, and they did themselves proud, adding about \$25 to the school fund. Mr. Hamilton got to smoke the cigars.

All regret that the Kingston high school has closed on account of not having enough pupils to hold it. Boys and girls would better get your slates and arithmetics and let's get busy and lift this old school out of the rut. It can and must be done.

Miss Stopp has returned to Richmond where she will attend the Normal School. She spent several nights with the school children before taking her leave and left many warm friends in this community. She was the guest of Mr. and Mrs. Green Durham on Thursday night and Friday.

Mr. and Mrs. N. A. Durham and Miss Merce Drickett, of Richmond, spent Friday night with Mr. and Mrs. Green Durham, the hustling new trustee, at the school.

Nearly everyone in this community is through hauling tobacco. They are now planning for their plant beds for the next crop. There is lots of corn in the field yet.

Mrs. Asa Parks and children and Mrs. Kit Parks and children were the guests of Mr. C. F. Parks Monday.

J. M. Powell and wife, of Coyle, and Asa Parks and family were the guests of Green Durham and family Sunday.

Most all the pinhookers are like the groundhog. They have seen their shadows and gone to their holes.

There's lots of colds and grip in this community and flu medicine is mighty scarce.

Mr. W. A. Powell, who has recently moved to the D. W. Welch place, that he bought from his brother, John Powell, of Richmond, is doing quite a lot of improving, building and fencing. We always welcome good neighbors.

Mack Lane was over from Lexington on business.

Jim Murray has purchased the grist mill which has been owned and operated by C. F. Parks for some time.

Hurrah for the Daily Register. It's always welcome in our home.

Who Says "Poor Fish Now?"

Louisville Ky.—When 700 barrels of Old Kentucky whiskey went to Davy Jones' locker just off New York harbor Friday, it meant, etc.—Hopkinsville News Era.

NEW SCHOOL PLAN UP IN LEGISLATURE

(By Associated Press)

**Democrats Block Effort To
Abolish Commissioner Of
Confederate Pensions**

Resort to parliamentary law enabled Representative John T. Murphy, of Covington, and D. D. Howard, of Versailles, temporarily, at least, to prevent the House of Representatives abolishing the office of Confederate Pension Commissioner.

Representative Murphy was the first Democrat to perceive the effect of the bill and stopped the roll call to interpose an objection. Overruled, he objected again after the bill abolishing the department was passed, 48 to 32. He moved to recommit the bill and was overruled a second time.

At this juncture Representative Howard joined him, making the point that the bill, which abolished the office of Confederate Pension Commissioner and placed it under the Adjutant-General, carried an appropriation and must receive 51 votes. Speaker J. F. Bosworth took the matter under advisement until Monday.

Representative James H. Thompson, of Bourbon County, charged that the office of Commissioner of Confederate Pensions was not considered to be useless, but that the bill was introduced for the express purpose of de-capitalizing the present Commissioner.

The atmosphere surrounding the whole question, Representative Claude D. Minor said savored of politics, adding that "if there was a man in the state of Kentucky who was qualified to administer the duties of the office it was Colonel W. J. Stone, who marched to the tune of 'Dixie' and fought in the Gray."

By a vote of 67 to 0 the House passed the bill of Representative A. M. Wash to simplify indictment for violation of the stock law, amending section 2649 of the Kentucky statutes.

Senator Perry's "No Party Emblen" bill was given its first reading over the protest of the committee by a vote of 21 to 13, a few Republicans joining, the Democrats in voting it.

Senator Perry said the bill puts a premium of intelligence. His views were shared by Senator Big Larris, Republican. Senator C. W. Burton favored the bill, he said, as a means of preventing negroes "controlling the state when they obtain suffrage."

Republican leaders Hiram M. Brock, Robert Antle and S. P. Parks opposed the bill. The measure was read into the calendar by a vote of 21 to 13.

Taking up as a special order the first of the educational measures, shortly before the noon recess, the Senate went into a Committee of the Whole to consider the bill. George F. Colvin, Superintendent of Public Instruction, explained that a crisis exists in the educational system in Kentucky. Attendance in the public schools last year, he said was only 48 per cent of the seventeenth school census.

This condition he attributed to be due largely to the fact that thousands of schools were taught only a part of the term. More than 1,400 teachers, he said, had left the schools because they could not live on salaries paid them. The average pay of school teachers, Prof. Colvin said, was \$35 to \$70 a month. The state had done its part, Prof. Colvin said, but counties had not. He advocated a minimum tax of 30 cents on the \$100 in counties for school purposes. Further consideration of the bill was fixed as a special order for Thursday.

A bill was introduced by Representative R. L. Stewart to create a department of adults education and to appropriate \$75,000 annually for two years to carry out the provisions of the measure. The department would take the place of the Illiteracy Commission.

FAMOUS LECTURER COMING TO NORMAL

(By Associated Press)

Dr. Charles Upson Clark, who lectures at the Normal auditorium Tuesday and Wednesday nights, is said to be one of the really great lecturers produced by the war. Formerly of Yale University, he was a member of the American Academy at Rome in the early years of the Great War. Knowing his peculiar aptitude for seeing and presenting pictorial facts, the Italian government gave him free scope to observe the conduct of the war in north Italy and about Trieste and Fiume, where he spent the closing months of the struggle, studying the effects of the war upon Italy's great art treasures, and taking an abundance of stereoscopic slides. More recently the Rumanian government invited him to visit the Balkan region, where he spent the past autumn, gathering both stereoscopic and moving picture views showing the effects of the war in that region also, and the problems confronting the people and government of Rumania.

Dr. Clark is a teacher and a classical scholar of distinction, who brings to the interpretation of his pictures an unusual wealth of historical and literary appreciation. He does not however talk over the heads of his audience, but speaks in a remarkably clear and simple manner, almost conversational in style, and yet with a fluency and command of language not often found in combination with such directness and vividness. Besides his illustrated lectures on the Balkan and Adriatic problems, he has a wide repertoire of addresses on the literary and cultural inheritance of the classical peoples which are still found in the life of southern and eastern Europe. The charm of his presentation of this material can scarcely be realized by one who has not heard him; but it is attested by the fact that both the Italian and Rumanian governments have elected him to present their conditions, aims and problems in both picture and lecture forms to the American people. He will be heard not only on the two nights named but also at chapel on Wednesday morning. His particular themes will be announced later.

BUYS OHIO FARM AT \$207 AN ACRE

Henry Simpson, who recently sold his farm in the Coyle section, has bought a handsome farm of 66 1/2 acres near Franklin, Ohio, and will move there with his family as soon as he holds a sale of his personal effects next week. The place he bought in Ohio is four and a half miles from Franklin, and cost him \$207.50 an acre. It is said to be fine corn and tobacco land. The farm is about six miles from Middletown, Ohio, in the southern section of the Buckeye state. Mr. Simpson came to Madison 16 years ago from Jackson county.

U-Boat Commanders Demanded By Allies

(By Associated Press)

Berlin, Feb. 7.—Twelve admirals, two high seas fleet commanders 30 U-boat captains, and numerous other active officers of the German navy are on the list of Germans, whose extradition is demanded by the allies. It includes Admirals Von Mueller, Von Tirpitz, Von Capelle and Von Trotha.

The bill is sponsored by the Kentucky Federation of Women's Clubs. Mrs. J. C. Layne, of Ft. Thomas, Chairman of the Sixth District clubs, who was prominent in war work, will be on the ground to urge passage of the measure.

THE MARKETS

Cincinnati—Light run; hogs 25c to 50c higher; Chicago slow and unevenly higher; cattle quiet. Louisville—Cattle 100; slow and unchanged; hogs 600; 50c higher; tops \$14.75; sheep 200; steady and unchanged.

5 1/2 PER CENT INTEREST RAILROADS GET

(By Associated Press)

Washington, D. C., Feb. 7.—A return of 5 1/2 per cent on the aggregate value of the railroads will be guaranteed by the government for two years under an agreement reached today between the Senate and House conferees on the Railroad bill. After the two-year period, the return may be fixed by the Interstate Commerce Commission, which will be authorized to fix rates so as to yield that return. With their agreement on this section, the conferees completed their work on the bill. Leaders hope for its final enactment before the railroads are returned to private control March 1st.

THREE CONGRESSIONAL CANDIDATES CERTAIN

Hon. W. H. Shanks, of Stanford who was up court day, has not yet finally decided whether to make the race for congress in this district or not, he told friends here. He is being urged to get in by friends all over the district, however who believe that he would have a royal chance of winning the nomination and afterwards of defeating Congressman King Swope.

So far the only positively announced candidates, that is, those who are being boomed by their friends as certain starters are Judge Ralph Gilbert, of Shelbyville, Col. Frank Ripy, of Lawrenceburg and Judge Charles A. Hardin, of Mercer. The Louisville Times the other day published some 8th district congressional politics, the interesting right now.

Lieut. Col. Frank L. Ripy, of Lawrenceburg, has already made a start to obtain the Democratic nomination for Congress in the Eighth District and is making up his organization for the primary campaign. He is a born campaigner and should make it very interesting for his opponents in a race that bids fair to have a field full of starters nearly every county in the district having a favorite son with congressional aspirations. Col. Ripy saw active service on the firing line in France, and he is the first officer on the Democratic side to become a candidate for high office and test the sentiment that hedges about a soldier who was "over there."

Judge Ralph W. Gilbert, of Shelbyville, has let it be known that he has finally decided to make the race for the Democratic nomination for Congress in the Eighth district this year, which means that the western end of the district will make a strong fight to land the nomination in the August primary. Judge Gilbert is the son of the late Congressman George G. Gilbert, who served the district at Washington 20 years ago. With the strong Democratic counties of Shelby and Spencer behind him, Judge Gilbert will be a most potential factor in the congressional free-for-all to be run off the first Saturday in August.

BASKET BALL TEAMS LOSE

The Madison High School basketball teams played a double header in Nicholasville Friday evening. The boys team was defeated by score of 23 to 9 and the girls 27 to 13. They were chaperoned by Prof. and Mrs. Starns and Miss Allman.

DR. MULLINS ON SPIRITUALISM

Influenced by widespread interest in spiritualism, the Rev. Dr. Edgar Y. Mullins, president of the Southern Baptist Theological Seminary at Louisville, will give a series of four sermons on the subject at Broadway Baptist church, starting Sunday night. "Spiritualism is the natural outcome of every war," said Dr. Mullins last night. "It gives opportunities for those who claim to be mediums to exercise their alleged powers extensively. Some of these are, of course false but I believe most of them to be sincere."

"I do not believe in communication with spirits although I am open to conviction."

CAPT. JAMES W. HART DIES AT CYNTHIANA

**Former Resident Of Richmond
And Widely Known And Es-
teemed In Blue Grass**

Relatives here have received news of the death at Cynthiana of Capt. James William Hart, formerly of Richmond. He was proprietor of the old Garnett House on Second street. He was an uncle of Mrs. H. L. Perry and Mrs. James West. He has many friends here who will regret to hear of his death.

Capt. Hart, 88 years old and is survived by his wife and seven children. He was a valiant soldier in the Confederate army, and a patriot. He has lived the life of a patriarch at his beautiful home in Cynthiana. This was a character which inspired all who knew him and his life a benediction to all with whom he came in contact.

Capt. Hart was born in Lee County, Harrison county, the son of the late William Hart and Jane Chowning. He married Oct. 17, 1870, Miss Cordie Bailey, who survives her husband, with four sons and three daughters, Will and Howard Hart, and Mrs. Embury Allen, Lexington, Lee Hart, Owensboro, Warren Hart, Mrs. Gran Taylor, Mrs. W. R. Leek, of Cynthiana. He has one brother, Thomas H. Hart, Richmond, and one sister, Mrs. Letha Shropshire, Leesburg.

Canadian Pensions Higher

(By Associated Press)

Ottawa, Ont., Feb. 7.—Comparisons between Canadian and American pensions, has caused dominion government officials to declare that Canadian pensions are higher in all classes except to totally disabled men or to their dependents. It was announced that Canadian figures showed disabled single men receiving \$600 a year in the United States and \$720 in Canada, and recommendations have been made that the dominion government increase its allowance to this class.

Notice War Mothers

The War Mothers will please pay their annual dues as early as possible, to Mrs. R. E. Turley, treasurer of the county chapter. Mrs. Wm. Gardner, our State War Mother, is asking an immediate response to this matter.

MRS. ROY BURNAM County War Mother

AGED LADY DIES

Miss Mollie Bloomfield died in the Eastern part of the city Monday after a lingering illness of paralysis. She was about 65 years of age, and resided with one sister, who resided with her. Brief funeral services were conducted at the grave by Dr. Olin Green.

PROMINENT TOBACCONIST DEAD

Louisville, Ky., Feb. 7.—John V. Mathews, aged 50, American representative of the British-American Tobacco Company, died at his home in New York City according to word received here. He was widely known.

SECRETARY LANE RESIGNS

Washington, Feb. 7.—Secretary Lane of the Department of the Interior, has placed his resignation in the hands of President Wilson. It became known some time ago that the Secretary contemplated leaving the cabinet when it was convenient for the President to release him. His resignation will become effective March 1st.

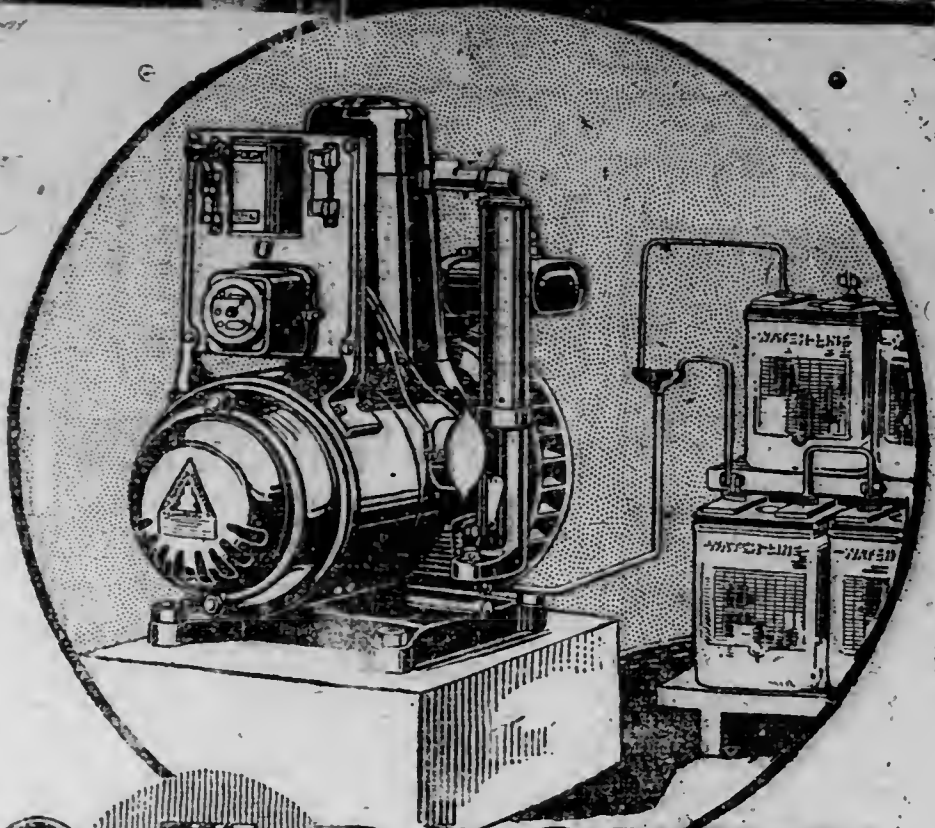

WEEK'S WEATHER GUESS

Washington, D. C., Feb. 7.—For the Ohio valley—Generally fair in the first part with occasional rains thereafter. Temperatures close to season average.

WASTE OF WATER

There is a waste of over 350,000 gallons of water every 24 hours, by consumers letting faucets run mostly at night. This waste of water not only entails great and useless expense, but it may make it impossible to furnish adequate water pressure in case of fire. We hope that all water consumers will appreciate these conditions and take pains to confine their use of water within reasonable bounds.

RICHMOND WATER & LIGHT COMPANY, Incorporated

DELCO-LIGHT

The Complete Electric Light and Power Plant

If you could "wish" for the kind of a lighting plant you want—you would wish for one—
That is air-cooled, so you would have no water to carry.
That runs on Kerosene, a cheap fuel.
That has a simple oiling system, one place to oil.
That has a suction mixing valve, eliminating carburetor adjustments.
That has a specially designed, rugged storage battery with back plates and Rubber separators, that make for long life.

DELCO-LIGHT meets all these requirements.

It is air-cooled, runs on Kerosene, has one place to oil, a simple mixing valve, a thick plate storage battery, with Rubber separators.

Over 70,000 satisfied users testify that Delco-Light "PAYS FOR ITSELF" in time and labor saved.

A complete Sales organization covers the country. Your needs will receive prompt attention.

"There's a Delco-Light man near you."

The Matter With America
Answering the pertinent question, "What's the matter with America these days?" the Fargo (S. D.) Forum says:

Too many diamonds, not enough alarm clocks.
Too many silk shirts, not enough blue flannel ones.
Too many pointed-toes, and not enough square-toed ones.
Too many serge suits and not enough overalls.
Too many décolleté and not enough aprons.

Too many satin upholstered limousines and not enough cows.
Too many consumers and not enough producers.
Too many oil stocks and not enough savings accounts.

Too many envy of the results of hard work and too little desire to wealth and too little desire to emulate it.

Too many desiring short cuts to wealth and too few willing to pay the price.

Too many of the spirit of "get while the getting is good" and not enough of the old fashioned Christianity.

Too much discontent that vents itself in mere complaining and too little real efforts to remedy conditions.
Too much class consciousness and too little common democracy and love of humanity.

REAL ESTATE DEALS

A. F. Sanders to Estill Tussey, 6 3-100 acres for \$400.

Carlos Moore to W. T. Moore, 28 2-3 acres for \$2,000.

Delightful Birthday Party

A crowd of his good friends took lunch with them and called upon Mr. Tom R. Park at his home in the country Friday, the 30th, last. The occasion was his 46th birthday and the party proved a delightful surprise to him. All had a jolly time, and the "eats" were greatly enjoyed. Among those who went along were: Merrill Parks, James Parks, Lucy Parks, Mr. and Mrs. J. A. Turpin, Fannie Sue Parks, Lizzie Golden, Mrs. Tom Moberly, J. F. Moberly, Mr. and Mrs. C. L. Tipton, Thomas R. Tipton, Mrs. John T. Cox and baby, Telitha Parks, Mr. and Mrs. Jas. B. Noland, Mrs. K. D. Noland, Mrs. Alice Parks, Annie Ruth, Fannie Rea and R. T. Parks.

Dr. M. T. Chandler spent Friday in Cynthiana.

Mr. James Shaw spent Friday in Frankfort.

President T. J. Coates spent Friday in Frankfort.

Mrs. Luther Mize is ill this week at

COLLEGE HILL

Mr. and Mrs. Vernon Griggs, of Lexington, and Mr. and Mrs. John Hise of Winchester, were here to attend the Hall-Ginter wedding.

Mrs. Annie Cravens, of Versailles, was here to witness the marriage of her daughter Miss Angie Hall.

Mrs. M. B. Hill is very sick at her home with gripe.

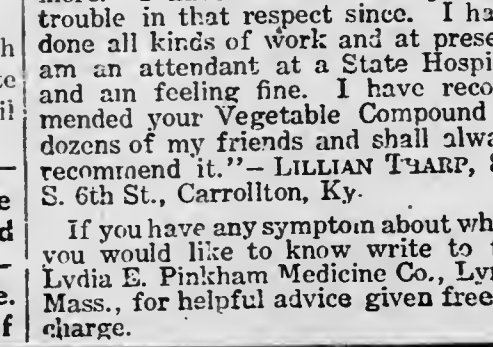

Mr. George Ginter and Miss Angie Hall were united in marriage at the Southern Methodist church Tuesday afternoon at 4 o'clock by the Rev. J. A. McClintock. The attendants were Miss Carrie Ginter and Mr. Dudley Clay Berryman. Miss Hall was attired in a tailored suit of dark blue cloth with hat and gloves to match. She is a bright and attractive young lady and will be a real help mate to the man of her choice. Mr. Ginter is a fine young business man. He is the junior member of the firm of Ginter-Bros., capable and industrious and worthy in every respect of the prize won. After the ceremony they were entertained at the home of the groom's mother, Mrs. Eliza Ginter, with an elaborate 6 o'clock dinner. They have a host of friends who join in wishing them every happiness.

LIFE WAS A MISERY TO HER

Says this Woman Until Relieved by Lydia E. Pinkham's Vegetable Compound.

Carrollton, Ky.—"I suffered almost two years with female weakness. I could not walk any distance, ride or take any exercise at all without resting. If I swept the floor or did any kind of work it would bring my sickness on. I was weak and languid, had no energy, and life was a misery to me. I was under the care of a good physician for several months and tried other remedies. I had read of Lydia E. Pinkham's Vegetable Compound and decided to try it. After taking twelve bottles I found myself much improved and I took six more. I have never had any more trouble in that respect since. I have an attendant at a State Hospital and am feeling fine. I have recommended your Vegetable Compound to dozens of my friends and shall always recommend it."—LILLIAN THARP, 824 S. 6th St., Carrollton, Ky.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

WACO

Mr. and Mrs. Robert Elkin and children were week-end visitors of Mr. and Mrs. Warren Elkin near Berea. Mr. and Mrs. W. M. Hise and daughter, Neva, Mr. C. L. Searey and Miss Lena Taylor were shopping in Lexington Friday.

Mrs. Sallie Quinn, of Bloomington, Ill., is the guest of Mrs. C. L. Searey for the week.

Mrs. Tom Cain and son, went to Illinois Monday to be with the former's mother, Mrs. Portwood, who is critically ill at that place. Mrs. Portwood was formerly from Madison county.

Prof. Mills, of Waco, High school will take the pupils from the seventh grade on up to the twelfth to Frankfort Thursday to take in the city and visit the legislature body which is in session at that place.

Mr. Dan Wallace sold 165 acres of bottom land to Mr. C. M. Tribble at \$110 per acre.

G. S. McKinney sold a bunch of hogs to Ora Hackett at \$15 per hundred.

Mr. Rucker B. Baumstark, of Irvine visited the home of his last week. Fourteen of our eighth grade pupils went to Richmond to take the examination for High school.

Mr. A. T. McKinney, of Red House, and Miss McKinney, of Richmond, visited their father here this week.

Dr. Vardy Taylor owner of the old Waco mill is remodeling and making a first class up to date garage out of it, which will be a great convenience to the people of this community.

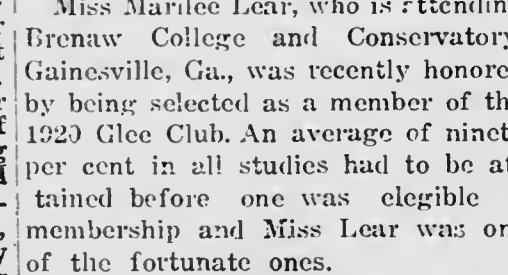

LANCASTER

The marriage of Miss Hazel Moore to Mr. Robert P. Warmouth occurred at Lancaster Thursday. The bride is the daughter of Mr. and Mrs. Philip Moore of this county. Mr. Warmouth is a successful Garrard county farmer.

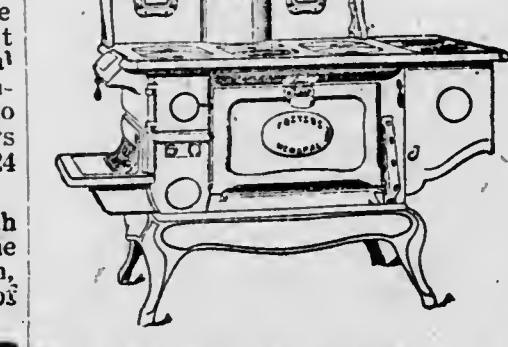

The marriage of Miss Maud Bourne to Mr. Orville Meadow, both of this county, was solemnized in Jeffersonville, Ind. The bride is the daughter of Mr. E. S. Bourne and Mr. Meadow is a prosperous farmer of Hyattsville.

On Saturday at high noon, Miss Stella Adams was married to Mr. Elijah Benge. The ceremony was solemnized at the home of Rev. C. D. Strother, of a number, the officiating minister in the presence of a number of friends. A few days previous to this, the bride's sisters, Bertha and Jaunita were married to Elisha Adams and Andrew Cheatham. All are residents of this county.

Miss Marilee Lear, who is attending Brenau College and Conservatory, Gainesville, Ga., was recently honored by being selected as a member of the 1920 Glee Club. An average of ninety per cent in all studies had to be attained before one was eligible to membership and Miss Lear was one of the fortunate ones.

KEPT HER AWAKE

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Markville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful."

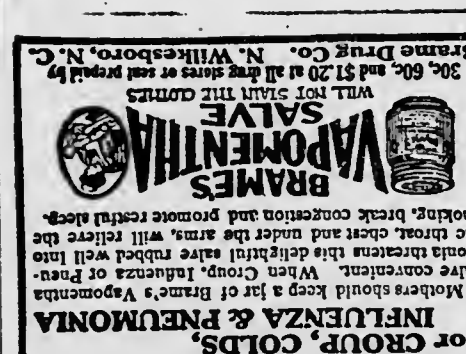

"I could not do anything, not even sleep at night. It kept me awake most of the night... I took different medicines, but nothing did me any good or relieved me until I took Cardui."

"I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again... I decided I would try Cardui... By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone."

"I shall always praise Cardui. I continued taking it until I was strong and well." If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their pre... good health. Give it a trial. NC-122

YOUTH and HEALTH

Young People in the first flush of life are apt to pay little attention to their health. This was evidenced during the war when so many young men apparently strong and healthy were found unfit for military duty. It is your paramount duty to take care of your spine so that you may not only enjoy health but will also be in a condition that you can do as much good in the world as possible. A young man who is continually sick or a young woman who complains of ill health all the time, should be the exception and not the rule.

On the other hand you may be apparently healthy now and yet your spine may be far from normal. You may have some vertebral subluxation (displacement of the small bones) which will in the future cause you serious trouble. These subluxations cause nerve pressure thus preventing the vital force from flowing uninterruptedly to the various organs. The result is disease in that organ which is not supplied with its full quota of vital force. The chiropractor locates the subluxated vertebra with his bare hands, adjusts it to its normal position. The pressure on the nerve is lifted, the vital force again flows uninterruptedly to the various organs and health is the result.

Young people are very often not aware that they have any vertebral subluxations. They think that such "might occur" in those who are really sick, but as for themselves, they don't yet feel sick.

99 per cent of the human race have more or less subluxations, some so slight that they are not apparent except to the skilled fingers of a competent chiropractor.

See your chiropractor at the earliest opportunity. Get him to give you a spinal analysis and if necessary chiropractic vertebral adjustments.

REMEMBER AN ADJUSTMENT IN TIME SAVES NINETY-NINE
You will thus ward off serious trouble in the future, will enjoy health and be able to get the best possible out of life.

Consultation and Spinal Analysis free.

EVERY AUTOMOBILE OWNER NEEDS LIABILITY INSURANCE WHETHER IN THE CITY OR COUNTY

Traffic density causes many accident, but not all. Automobiles are not operated on sand rails over private right of way. No driver of an automobile can always guess correctly what pedestrians will do or out-guess the other driver every time.

NECESSITY—Automobile liability insurance, covering liability for personal injuries.

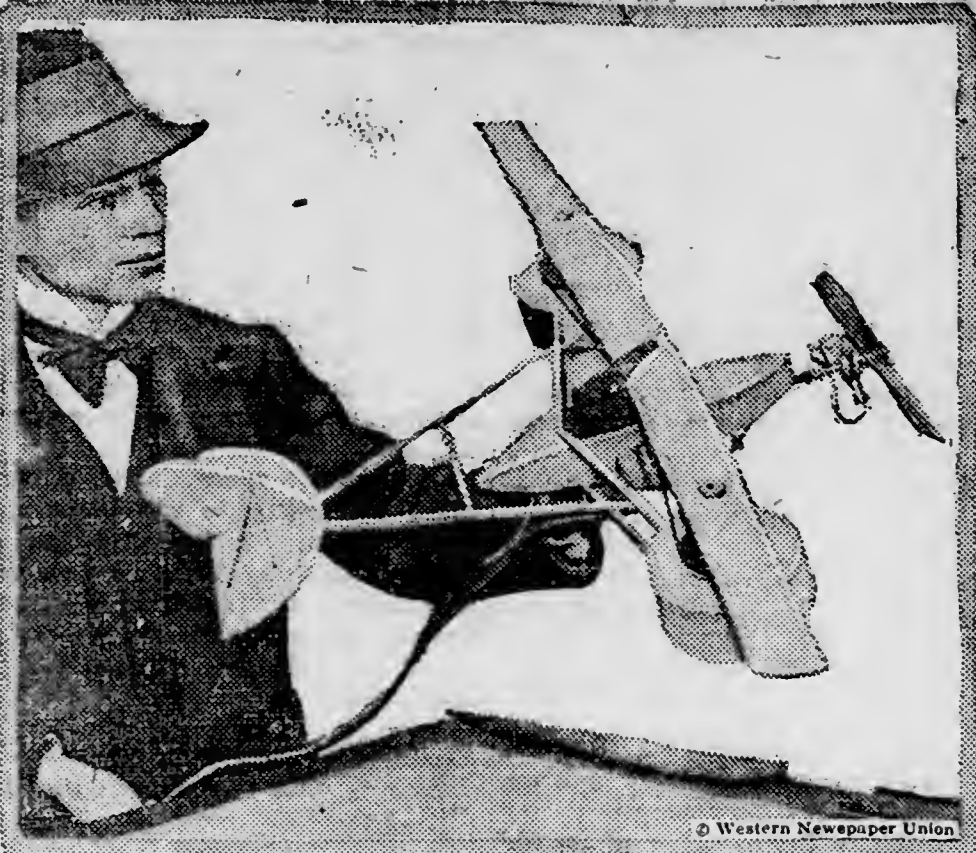

WISDOM—Automobile property damage insurance, covering liability for damage to property of others.

PRUDENCE—Automobile collision insurance, covering damage to the insured automobile by collision.

It is not the amount of money one pays for insurance that counts, it is the amount of insurance plus the amount and quality of SERVICE one gets for the money.

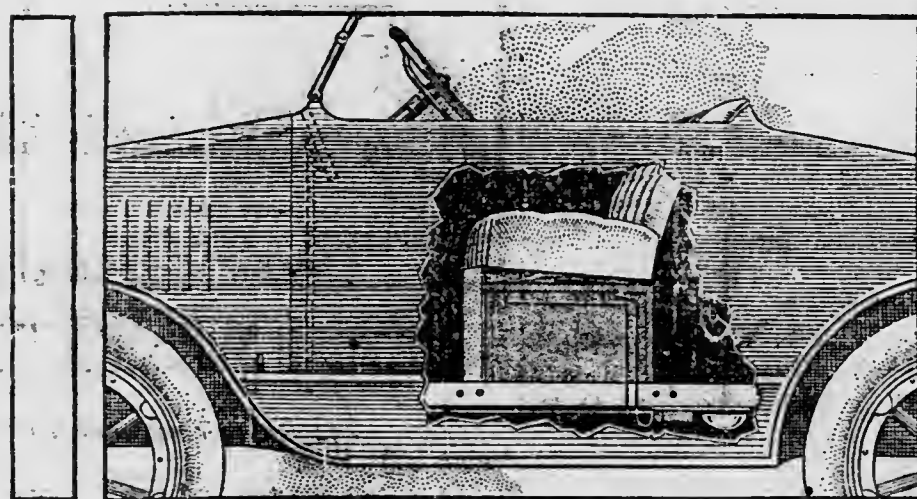

L. P. EVANS
GENERAL INSURANCE

THIS AIRPLANE MODEL RISES VERTICALLY

Wm. J. Beach of Australia, a pioneer in aviation, and his model helicopter, which he recently demonstrated before a committee from the American Flying club. The little plane actually rose vertically from a standing position on the table, and, to quote Mr. Beach, "there is no reason why an actual plane built along the same lines should not do the same."

AUTOMOBILE-THIEF ALARM IS EFFICIENT AND IS NOT DIFFICULT OF INSTALLATION

As the Thief Takes His Seat at the Steering Wheel, He Sets Going an Invisible Alarm Bell, Which Continues to Ring Until Switched Off by a Concealed Switch in Another Part of the Car.

Many good and efficient automobile locks have been called into existence by the epidemic of automobile thefts, and there is now no excuse for leaving a car unprotected. The locks in general use are of several classes, each presenting its own advantages and open to its own objections. Electrical locks for merely breaking the ignition circuit were the first on the scene, and are still used to some extent, although no expert automobile thief would be delayed by them for more than a few seconds, as he would simply connect around the "lock" with a wire leading directly from the battery to the igniter.

Complicated Locks.

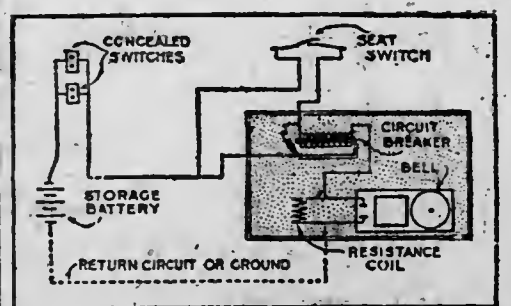

Gasoline-line locks are useful, but somewhat complicated in their installation, and introduce the questionable element of additional opportunity for gasoline leakage. Probably the favorite method is a purely mechanical lock, on the steering gear, the starting crank, or some other essential part of the mechanism.

While all of these locks may be relied upon to prevent or at least delay considerably the work of the thief,

ringing, and continues to ring even after the thief leaves his seat and seeks safety from the police or citizens who are sure to be attracted by the noise of the bell. The bell will continue to ring until the owner returns to the car, or until somebody finds the hidden control switch and turns it off. Of course, if the thief is ingenious enough to find this switch at once, he can turn off the alarm himself, but there is small chance of a thief working very long around a car to the accompaniment of a loudly clanging bell.

Diagram Explains.

The various parts of the circuit and their connection are shown in the diagram. The materials needed are: One or more small switches to be concealed as well as possible within reach of the driver; a good, loud electric bell; a relay, or circuit breaker, such as is used on nearly all modern automobiles to connect the generator to the battery when the proper speed is reached; some resistance wire, large enough to carry several amperes of current and some pieces of wood and spring brass to make the seat switch. As will be noted in the circuit diagram when the concealed switch is closed and the seat switch is closed, the circuit through the bell is established, and, at the same time, the circuit through the circuit-breaker switch, so that, even though the latter is open, the bell continues to ring. The resistance coil would not be necessary if the circuit through the bell was continuous. Since, however, it is interrupted at each tap of the bell, the coil is necessary in order to maintain a sufficient current through the circuit breaker to keep it from permitting the shunt circuit across the seat switch to open, thus stopping the alarm. The only way the alarm can be stopped is by breaking the main circuit, either at the concealed switch or at some other point. If properly wired this cannot be done by a stranger without spending considerable time, which, under the circumstances, is out of the question for a thief, at least in a city or town. Popular Mechanics Magazine.

Various Parts of Circuit.

few, if any, of them are of any assistance to the police in capturing the would-be thief. The device here described is intended to accomplish this purpose, and at the same time furnish a protective device with all the convenience of the ignition lock.

Arrangement of Circuit.

The effect of the contrivance is that, when a thief enters the car and takes his place in the driver's seat, an invisible alarm bell under the car starts

THINKS BIG SUM WILL BE HAD FOR ROADS

\$75,000,000 Plan Before Legislature May Go Thro' Says Jackson Representative

The great sum of \$75,000,000 will be made available for building of good roads in Kentucky, if plans before the present legislature are carried out, said H. N. Dean, Representative from Jackson county in the House, who spent Friday night with Wm. Mansfield, and went on Saturday to visit relatives at Berea. Mr. Dean came from Frankfort during the week-end recess. He says that the larger portion of the sum that will be needed to give Kentucky a real system of good roads will be raised from the proposed 50c a gallon tax on whiskey. This tax will be paid when the federal government takes over the whiskey he said, as it is sure to do. He says further that a largely increased horse-power tax on automobiles will probably be levied to help out the road fund, and then a tax on the acreage of each farm along the good roads.

Although he lives back in Jackson county where there are mighty few roads of any sort, Mr. Dean is an enthusiastic good roads man. He is very proud of the fact that Jackson has just voted bonds to build a pike on the Madison county line, and he is very anxious to see Madison cooperate by building on to the county line to meet it, which, in all probability, will be done.

JACK RAISES OR LOWERS CAR WITHOUT CRAWLING UNDER TO MAKE ADJUSTMENT

A jack whose handle turns instead of pumping up and down has been produced by a Massachusetts manufacturer. The handle is a long one when extended, permitting the operator to put the device in place and raise or lower his car without crawling under the machine. Ball bearings carry the lift and thrust, a turn on the handle in one direction lifting the car and a twist in the reverse direction lowering it, and the operation is said to be much easier than that of the ordinary jack. When not in use the tool folds up compactly and is carried in a small bag.

BUICKS GO RAPIDLY

Subscribe for the Daily Register

It didn't take Burton Roberts, manager of the Richmond Buick Company, long to sell the four handsome new Buick cars that he drove through from Michigan last week. They went like hot cakes. He says that he is unable to keep a sufficient supply on hand to meet the demands of his customers. A nifty roadster went to Elmer Deatherage; Col. S. F. Creelius, City Engineer, bought a touring car, B. A. Moberly, got a touring car, and the other was quickly sold also.

Price and Value

A suit of clothes can cost too much or too little. No possible combination of materials and workmanship can justify \$200 for a business suit.

Motor Trucks can cost too much or too little. There is a happy medium—a point where service and price balance—a middle ground where value is greatest.

The limited market for the high priced truck means a small production, high overhead; necessitates a wide margin of profit, an inflated market price. The motor truck built down to a price is an expensive investment. Too many hours in the repair shop, high upkeep, short life, quick depreciation, low resale value. Bethlehem Motor Trucks are not built down to meet a price or up to justify a price. They represent the right economic combination of proper price and proper value. Buy your Motor Truck on Facts.

TO FEATURE MADISON ON BIG SIGNBOARDS

Local officials are pleased over information that has reached them that this community is to be featured on the historical bulletin boards of the United States Tire Company.

Motorists from Maine to California are acquainted with these sign boards, which are often described as the most wonderful outdoor advertising in the world. Every local motorist who has seen any of them regards the selection of this community to get space on the boards as a cause for gratification.

Each of the boards is in the shape of a great open book. Across the top of each page appear the words "History of the United States." On the left page are set historical facts of interest regarding the town which is advertised. On the opposite page is the simple announcement, "United States tires are good tires."

The big tire company has been deluged with letters and telegrams from chambers of commerce and officials of cities from coast to coast urging the erection of these history books near their towns.

Many stories are told concerning the books to show their interest to automobilists. One of the best of these anecdotes has to do with the only coal mine in Rhode Island.

The woman who owned the property on which the mine was located leased a few feet of ground for a bulletin board. A few weeks later she made a demand that the board be removed, declaring that she was driven to desperation by the number of motorists who stopped at her house asking to see the coal mine.

Instead of removing the board, the company suggested that she charge a small fee for showing the visitors over the mine. She adopted the suggestion, and in the remaining summer months made more money in this way than she had been able to derive from her farm in the two preceding years.

Another book was placed on the front of a famous old mission in California at the request of the monks, and brought hundreds of additional sight-seers to the place.

REWARD—I will give \$10 reward for the return of one female dog named "Gyp," weight about 30 pounds with black and white except head which is black and white with blaze around forehead, black kidneys on both sides near the back, and long curly tail. W. H. Bower, Agent L. & N. R. R. 323

AVOID TROUBLES OF AUTO ENGINE

If Owner Expects Enjoyment and Comfort Out of Car He Must Take Care of It.

WATCH FOR UNUSUAL NOISES

Locate Squeaks and Lubricate Parts Affected—Motorist Who Seems Lucky With Car Is One Who Looks After Details.

If you want to get enjoyment and comfort out of your car you must take care of it as you would a fine horse. Therefore you must:

Not race the engine unnecessarily. Have your car tuned for every unusual noise. If it is a squeak locate and lubricate the part. If it is some other noise find the loose part that causes it and tighten it right away.

Do not tinker about the engine when it isn't necessary. Half the ability to make an adjustment or repair is the ability to discover its necessity.

Motorist Who Seems "Lucky." Have you ever noticed the motorist who seems "lucky" with his car, who never seems to have a bit of trouble, who keeps it neat and whose engine always starts immediately the self-starter is pressed; who doesn't have any breakdowns while on the road, nor curse the manufacturer for building

Inspect Your Engine Systematically Once a Week—You Will Save Money.

such a car? It isn't luck at all. With all adjustments properly taken care of, every bearing and working part lubricated, the whole car will run perfectly and will continue to run with only a wee bit of attention.

In neglecting details you save time and inconvenience to be sure but eventually you will find a bad break and what time you have saved will be wasted in expensive repairs.

Avoid Accidents. Never drive your car at high speed over any road, much less a rough or a slippery one. The slight gain in time will be offset by the risk of an accident and the pounding and racking which the car will receive.

It has been proven that the owner who drives his car at average speeds of from twenty-five to thirty-five miles an hour over all sorts of roads pays much more per mile for gasoline, oil and tires than the driver who watches constantly for rough places and avoids them and who drives at a rate of eighteen to twenty miles per hour. A car which is driven at a high rate of speed is usually in the repair shop often, which adds much more to the cost per mile of operation.

It is not how many miles are covered in a certain time, but the number of miles of useful travel that can be obtained at the least cost for fuel, oil, tires and repairs.—Popular Science Monthly.

High priced land demands a guarantee of fair profit. Basic Slag is that guarantee. Order now. 28--6

"ON TIME" DELIVERIES BUILD GOOD WILL

Next time your delivery man reports "tire trouble," and you've disappointed one good customer, drop around and see us. We're glad to show you the Gates principle which has taken the worry out of driving and puts money in the pockets of a good many car owners in this town! Why? Because they are "Puncture-proof."

Insist on Genuine Ford Parts

Imitation "Ford" parts are being sold by many mail-order houses, downtown stores and garages to unsuspecting Ford owners as "Ford" parts. But they are not Genuine Ford parts made by the Ford Motor Company. They are made by concerns who have no connection whatsoever with the Ford Motor Company. These imitation parts are not even made from the same grade of steel, or under the same formulas used by the Ford Company. They are counterfeit parts. Tests have shown them to break when the genuine Ford parts didn't even bend, and they generally are from thirty-five to one hundred per cent lower in quality.

The Authorized Ford Dealer is your protection. As such, we handle nothing but the Genuine Ford parts. They are made from the famous Ford Vanadium Steel and each part—according to its use—is heat-treated in the way that will give it the longest wearing qualities. Every part is the same as its duplicate in your Ford truck.

Our stock of parts is complete. And our Ford garage and Ford mechanics are at your service at all times. Drive in when replacements or repairs for your Ford car may be necessary. Save your car and also your money.

Richmond Motor Company

TO REPLACE CURRENT IN AVERAGE BATTERY

When Overdrawn It Is Likely to Cause Much Discomfort.

Liquid in Fully Charged Battery Will Stand "Below Zero" Temperatures—Connections of Two Main Cables Must Be Tight.

Average batteries are of different sizes and have capacities from 60 ampere hours up. A pair of good headlights may discharge the battery at five amperes. This means they alone would exhaust a completely charged sixty-hour battery in twelve hours. To replace this current you would have to drive the car probably seven or eight hours when charging at the rate of ten amperes.

An overdrawn bank account may cause mental discomfort. An overdrawn battery account is apt to cause discomfort—both mental and physical. The liquid (electrolyte) in a fully charged battery will stand "below zero" temperatures. In a discharged battery it will freeze at a much higher temperature. This is reason for special economy in cold weather. The liquid also should be kept well above the plates. Offer a battery a drink at least once in two weeks, but—in cold weather—only just before a run. Water added to the electrolyte will mix only when the battery is charging or discharging. Before such mixing it is just clear water and will freeze at 32 degrees.

The two main cable connections at the battery must be tight. Looseness here has been the cause of much hand cranking. Look at these contact posts occasionally, and if green corrosion appears disconnect the terminals and clean all surfaces well. Corrosion working in between the post and the cable terminal or between the end of the wire cable itself and the sleeve terminal. It is coldered into, interfering with the free flow of current into and out of the battery.

Every day is sunny if you drink Rookwood coffee. You go through life just once, so why not live by the way? Rookwood coffee drinkers see the bright side of life. We want to sell you Rookwood. Call and see us. D. B. McKinney & Co. 28-6t

Let the Goods and Prices Convince You

Everyone selling furniture or any other good says "they sell cheaper, and this, and that," until the buyer hardly knows where to go or who to purchase from.

Before the rise in prices it did not make a great deal of difference, but now, since you know everything has advanced—you must of a necessity make your dollars purchase their full value. Now right here, is where we feel that we are in a position to be of service to you, in a very practical way. We purchased very largely during all of last year, looking ahead as far as it was possible to do so, that we might be able to save our patrons these advances. How well we have succeeded is best evidenced by the largest volume of business this firm has ever done; and, it is of daily occurrence to hear a customer say "that is a lower price than I can get elsewhere," or "I've looked everywhere and your goods and prices are better." But don't take our word for it—look all around and then come in and look over our line; and, let the goods and prices convince you that this is the place for you to purchase. We will consider it a pleasure to show you our line and you'll not be importuned to buy.

CONFIDENCE, SERVICE and RIGHT PRICE

are the principal factors that go to build up a permanent business and no one recognizes this more than we do.

The reason we put confidence first is that house furnishings happen to be a class of merchandise that is not bought every day, and few people understand their real value; therefore, if you need anything in our line we want you to come to our store and we will tell you as well as show you all about the various qualities, because we know, our business forces us to, and we want our store to stand as the reliable source of information for this community and we will guarantee you a personal service that you will like.

Commissioners Sale

Ann Eades Heirs, Plaintiff

vs.
Ann Eades Heire, Defs.

Pursuant to judgment and order of sale entered in the above styled cause, by the Madison Circuit Court, at its February term, 1920, the undersigned Commissioner, will expose to public sale to the highest and best bidder on the premises in Union City, Ky., on

Thursday, February 19, 1920 at the hour of 10:30 a. m., the following described property:

A certain tract or parcel of land in Madison county, Ky., on the waters of the Kentucky river and bounded as follows: By the lands of William Lanter, James Eades heirs, William Baber, and the Kentucky river, containing about 54 acres, more or less.

Also house and lot in Union City, Ky., containing 14 acres and being the same property conveyed to Ann Eades by J. G. Bosley and of record in the Madison County Clerk's office in deed book 54, page 293.

The sale will be had of both properties on the last described parcel in Union City, Ky.

Terms: Said land and town lot will be sold on a credit of six months, the purchaser being required to execute sale bond payable to the Commissioner, with approved security, and bearing interest at the rate of six per cent from day of sale until paid, and a lien being retained on the property conveyed until said purchase money and interest is paid in full.

R. B. TERRILL,
7, 11, 17 Master Com. M. C. C.

Commissioners Sale

Minerva Chrisman Heirs, Plff.

vs.
Minerva Chrisman Heirs, Defs.

Pursuant to judgment and order of sale entered in the above styled action, by the Madison Circuit Court, at its February term, 1920, the undersigned Commissioner will expose to public sale to the highest and best bidder, in front of the Court House door in Richmond, Ky., at the hour of 2 o'clock p. m. on

Saturday, February 21, 1920

the following described property: A certain tract or parcel of land in Madison county, Ky., on the waters of Paint Lick creek, and containing 44 acres, and bounded and described as follows: Being lots No. 3 and 4 in the Blackburn division of the estate and conveyed to C. F. Burnam by S. E. Scott, Commissioner, by deed found in deed book 35, page 462, in the Madison County Clerk's office. The pleadings filed herein are referred to for more complete description of the said land.

Terms: Said property will be sold on a credit of six and twelve months, the purchaser being required to execute sale bonds payable to the Commissioner, with approved security and bearing 6 per cent interest from day of sale until paid, with a lien retained on the property sold to secure the payment of said bonds and interest.

R. B. TERRILL,
7, 12, 19 Master Com. M. C. C.

Commissioners Sale

The undersigned, as Master Commissioner of the Madison Circuit Court, will on the premises near Round Hill, Madison County, Ky., on the

20th Day Of February, 1920

at the hour of 11 o'clock a. m., offer for public sale to the highest and best bidder, a tract of 71-95 acres of land fronting the Kirkville and Kentucky river turnpike, and being a part of the land of the late W. T. Broaddus.

Said land will first be offered in three separate tracts, tract No. 1 containing 23.62 acres; tract No. 2 containing 27.97 acres, and tract No. 3, containing 20.36 acres. It will then be offered as a whole and sold so as to realize the largest amount of money.

Said land is very fertile tobacco land and offers an opportunity to persons desiring to purchase a small farm, to obtain land of the very highest quality.

Said land will be sold upon a credit of six months and the purchasers will be required to execute sale bond with good security on the day of sale to comply with the terms thereof; with a lien on the property sold until bonds and interest are fully paid.

R. B. TERRILL,
7, 14, 18 Master Com. M. C. C.

CHIROPRACTIC

WHAT IS IT?

Chiropactic (Ki-ro-pak-tik) is the Science of locating the cause of disease and the Art of removing it by adjusting the spine, which relieves pressure on the nerves and allows nature's life spark, or nerve energy, to flow freely to and from the brain. The cause of disease as the Chiropactor finds it is a subluxation of one or more of the vertebrae of the spine. Subluxations are partial displacements of vertebrae which decrease the size of the openings through which the spinal nerves pass and impinge or press them, hence shut off a portion of the nerve supply to the organs or parts, and the result will be disease, deranged functional activity. A normal nerve supply to any organ or part of the human body generates normal function and maintains health. In adjusting the vertebrae to release the pressure, the Chiropactor uses and needs nothing but his hands. The whole object of his work is completed when this pressure is removed. Nature does the curing.
